

# SAXAFORM™

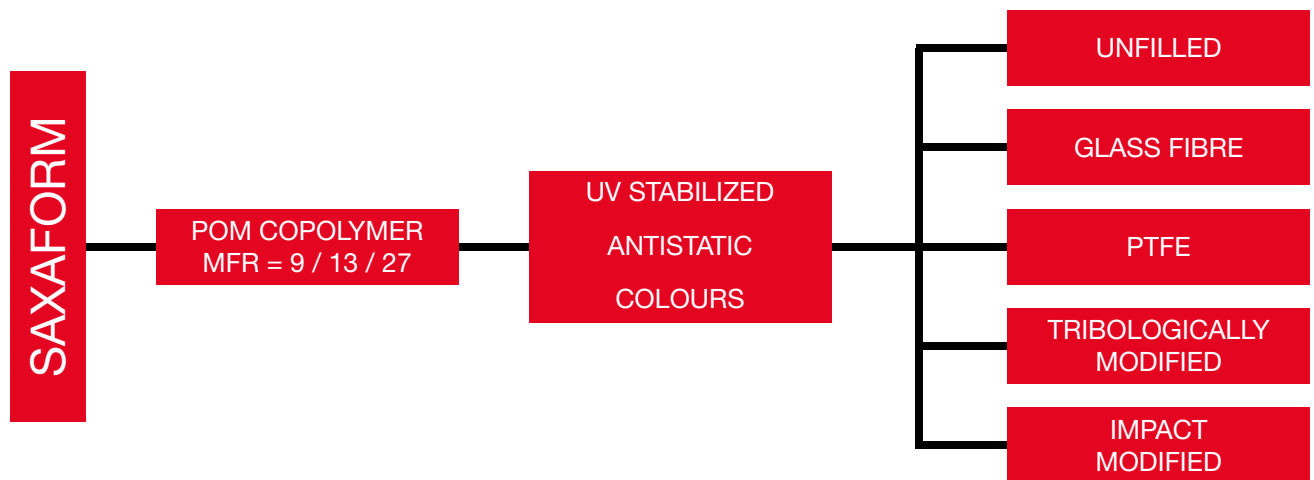

SLIDING OPPORTUNITIES

## SAXAFORM™ – POM-C

SAXAFORM™ compounds are semi-crystalline materials based on POM copolymers. The SAX® Polymers assortment comprises of grades with high rigidity and stiffness, good resiliency, outstanding chemical resistance as well as excellent wear and slide friction behavior.

**CUSTOMER-SPECIFIC ADAPTION IS POSSIBLE**

## POTENTIAL APPLICATIONS

- Gear wheels
- Screws
- Snap hooks
- Guiding rollers
- Mounting clips
- Casings
- Sliding elements
- Springs
- Speaker grids
