

**SAXAMID™**

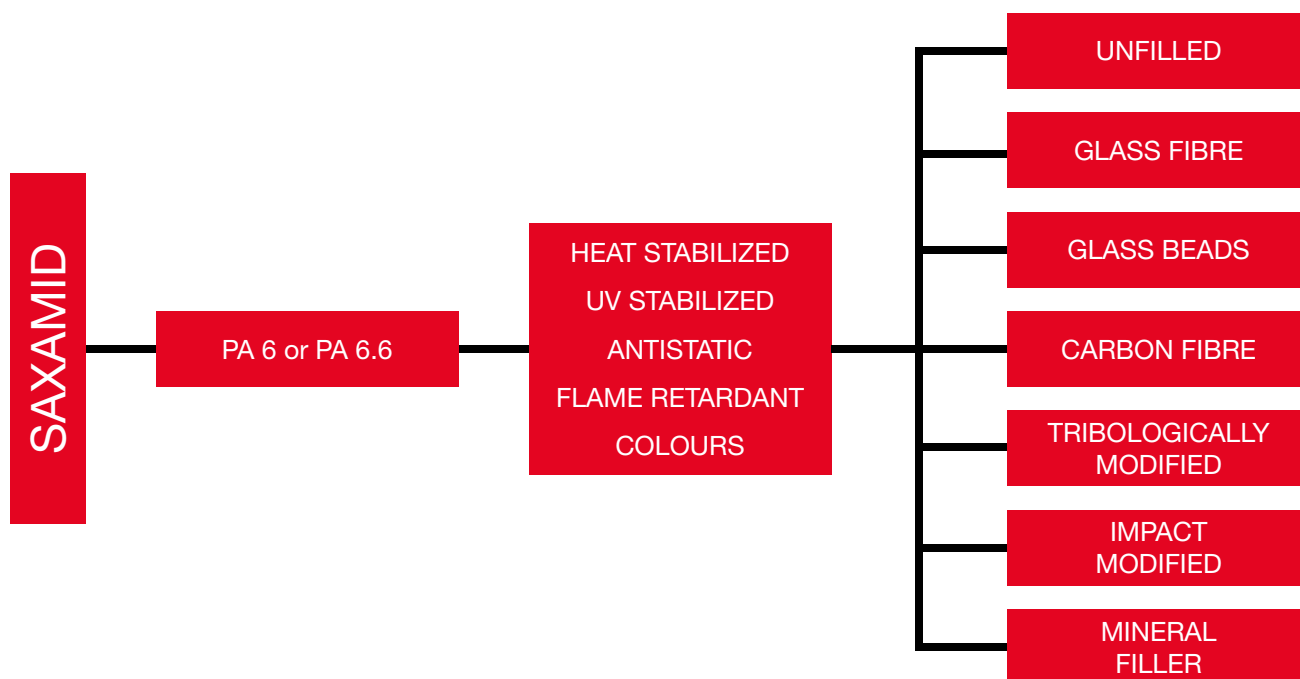

FOCUS ON BEST QUALITY

## SAXAMID™ – PA6 AND PA6.6

Semi-crystalline SAXAMID™ compounds based on PA6 and PA6.6 provide comfortable processing, very good impact resistance, optimal thermal behavior, excellent electrical properties and much more. SAX® Polymers offers a broad standard product portfolio for a variety of applications.

**CUSTOMER-SPECIFIC ADAPTION IS POSSIBLE!**

## POTENTIAL APPLICATIONS

- Ski bindings
- Housings
- Gears
- Charging plug for e-mobility
- Circuit breakers
- Wedges
- Guide elements
- Air vents
- Passive heat sinks
- Flow regulators
- Brackets
- Bezels
- Handles
